Become a Mentor

- Any individual with specialised knowledge in any academic field can register as a Mentor
- Users registered as Mentors will have an individual public profile page
- Mentors will be able to receive Mentee requests
- Mentors can Accept or Reject requests

Find Your Mentor

- Once a user is logged in his/her account at JMI VECOSPACE
- A profile page opens as an account overview
- User clicks on find your mentor
- List of available mentors open up
- Students can select mentor to seek guidance from, by clicking Select
- Once a mentor is selected, choice cannot be amended again

Take Guidance from Your Mentor

- Our mentors will give you an expert level guidance with thorough understanding on a subject or topic
- Mentors can guide their mentees through chat regarding an academic need
- Students can post their queries and mentors will address them effectively
- The conversations between Mentor and Mentee need to be strictly of academic nature

Guide Your Mentees

- The student profile page will show the mentor's profile thumbnail when online to chat
- The mentor will be able to chat with their mentees regarding any academic or professional requirement
- In case any mentee is not able to improve oneself or perform the tasks timely: The mentor can remove the mentee from his mentee list
- To remove a mentee a specific reason must be specified and click Yes else the mentee cannot be removed

Articles

- Articles Page is a properly thought out and newly developed concept which will help students studying in various departments publish articles
- On this page, the students will receive a strong response within the university
- Students studying in different departments are here to provide the best possible refined information in an effective manner and develop some concrete solutions

Event Calendar

- ▶ This page will show a list of a yearly events which will be organized within the campus
- ▶ Various departments will organise individual festivals to engage students in interesting activities with a academic perspective
- ▶ Departmental Festivals will allow students to participate as per choice and interest

Projects & Internship

- Projects and Internships will help students develop a power packed project based on a subject or look for internship opportunities
- All the important information will be available always on a simple click
- Projects and Internships will create a new approach towards professional training in accordance with academics

Job Opportunities

- Searching for Job opportunities through VECOSPACE is a first in its own setup to redesign the way job market shall be looked upon
- Using this feature of VECOSPACE students will have ample opportunities to look for a job position and offer available on the portal
- Categories for various job profiles will help the students look for job vacancies based on the field of interest they have
- Various Alumni members / Industry recruiters can also become an active member on the portal and share the company requirements if any need arises
- A well laid out page for Job description along with a Company profile and Contact Details such as: Contact Person Name, Address, Contact No. and Email Address will be available

Guest Speakers & Trainers

- Various Industry professionals and representatives will be given an invitation for Guest lectures at the University
- Students can attend these lectures for additional insight about a specific career field
- It will help students establish a professional contact with industry representatives
- Attending these lectures will help students develop a global approach to understand the changes taking place every day

Company Profile

- Company Pages work as a virtual introduction to the Company based on: Background, Vision, Mission Team Members and Value system
- Here individual companies will develop a company profile which shows brief description of the organization along with a list of various products and services
- An admin user can regularly add updates on the Company Profile as per any change
- Users will be able to filter their choice for a company and contact the specific organization if an Internship opportunity or Job offer is in play

Career Enhancers

- VECOSPACE will provide interactive sessions with Career Enhancing experts
- Specialised courses based on Skills Enhancement and Professional development will be offered
- Skills Enhancement Courses will help to:**
 - Change or grow your position and to refresh your skills
 - Learn new skills to increase or modify your field of specialization
- Professional Development Courses will help to:**
 - Plan for and get the career you want
 - Become a more effective communicator
 - Develop better understanding and communication
 - Discover your behavioural style and learn strategies for recognizing and working with people of differing styles
 - Improve or develop public speaking and presentation skills
 - Overcome difficulties with time management, procrastination, stress or interpersonal conflicts in the workplace
